

MEDICAL & FACIAL AESTHETICS
BY BEVERLEY ASHTON

Terms and Conditions

Pricing Structures

- Please be aware we have a 'Pricing Protocol' which will be discussed with you prior to your agreed Treatment.
- We do not offer 'Discounts' to Staff, Family or Friends however we are Training Centre and do have 'Modelling Roles' throughout the Year.
- As a Model of Beechwood Aesthetics you will receive your Treatment at a 50% special reduction. Please let us know if you would like to be added to our Model list.

Facial Assessment

- There is a charge of £39.99 for facial assessment, however this will be reimbursed on treatment and has a 3 month expiry date.
- You must have a formal appointment that has been booked either online or through the clinic, as the mobile number is no longer available.
- For products where volume per ml is standard such as Emervel Lip or Radiesse patients will purchase a syringe depending on their own specific need.
- For Botulinum Toxin (Botox), we use a European model which suggests that clinical excellence is best delivered by offering treatment based upon the volume of product used rather than pricing per area treated.

Treatment Protocol for Line Softening:

1. Prior to your treatment, an individual assessment will be made of your unique muscle pattern.
2. On your treatment appointment a **full** recommended dose will be injected.
3. Facial movement does not mean to say the treatment hasn't worked - the ability to frown AFTER A FULL TREATMENT DOSE will be the result of your own unique muscle pattern.
4. A review appointment will **only** be given to correct 'asymmetry' e.g. high or unequal eyebrows and payment will be charged for any extra Botox injected
5. We strongly recommend that you should only repeat your treatments, following a 4 to 6 month period.
6. Reviews must be taken within 3 week post treatment.
